The Fool Saves Her Life Whereas the Wise Girl Dies.

ELIZABETH, Pa., Nov. 26.—Two young girls, whose names could not be learned, were on a railway trestle at Finteyvillo Sunday, when a train came thundering along. One of them, who has always passed as simple, took in the danger at a glance, and, climbing down under the track, clung safely to the timbers until the train passed over. The other, who was a bright young girl mentally, seems to have, in her terror, lost all powers of action and was ground to death under the wheels.

WASHINGTON, No. 26.-The Chinese Legation here have received no information as to the breaking out of hostilities between China and France, but do not doubt it.

BAD, BAD, BAD BLOOD.

Some blood is bad because it is poor and weak. Some is bad because it contains impurities. Some men have such bad blood that the wonder is it does not po son the mosquitoes who come to bite them. The rich red color of good blood is owing to the iron which is present. Blood which has not enough iron in it is always unsatis-

factory. The persons in whose veins it circulates cannot be said to enjoy good health.

The efforts of expert chemists to produce a preparation of iron which can be assimilated with the blood have resulted in that perfect preparation which is an important part of Brown's Iron Bitters. It

is the only one which freely enters into the blood. It is the only one which accomplishes the desired good. Weak, poor, tain bood may be tun e rich and strong, and impure blood may be purified by the use of that G. eat Iron Medicine, Brown's from Bitters.
